

# Black Autumn: Surviving The Crash

## The Ultimate Guide to Surviving a Financial Collapse

In the wake of the 2008 financial crisis, millions of Americans lost their jobs, their homes, and their savings. The economic downturn was the worst since the Great Depression, and it left many people wondering if they would ever be able to recover.

# HOW TO SURVIVE A ROLLOVER CRASH

## PREVENTING A ROLL

1. **DON'T** overload your car and make sure loads are tied down securely.

2. **TAKE** corners at advised speeds and with respect to conditions.

3. If you do start to lift, turn the wheel toward the direction you're lifting.

## IF YOU START TO ROLL

1. **CROSS** your arms high up on your chest and grab your opposite shoulders; this makes a pocket for your chin inside your elbows and helps keep your neck and head straight and supported. Stay tight in this position as you turtle.

2. **DON'T** brace against the floor or steering wheel; the combination of airbags and breaking metal/glass makes it nearly impossible to keep that position, and exposes you to more danger.

3. **ONCE** the car has stopped rolling, immediately turn off engine, plant your hands and/or feet on the ceiling and carefully unbuckle your seatbelt. Exit through the window or door. Call 911 immediately.
