To get started, you will need the following materials:

Step 1: Sketch the Basket

Begin by sketching the basic shapes of the basket. Use a light touch and don't worry about making mistakes. You can always erase and redraw later.

Once you have the basic shapes sketched, start to add details. Pay attention to the shape and texture of the basket weave. You can also add shadows and highlights to create a sense of depth.

Step 3: Paint the Basket

Once you are happy with your sketch, start to paint the basket. If you are using watercolor, start with a light wash of color and gradually add darker colors to create shadows and depth. If you are using acrylic or oil paints, you can apply the paint more thickly.

Pay attention to the texture of the basket weave. You can use a variety of brushstrokes to create different effects. For example, you can use a stippling brush to create a rough texture or a liner brush to create a smooth texture.
