Here is a brief summary of the story:

Once upon a time, there were two green frogs who were best friends. They lived in a pond and they loved to play together. One day, they decided to go on an adventure and explore the world.

The two frogs set off on their journey and they soon met a rabbit. The rabbit was very friendly and he invited the frogs to join him for lunch. The frogs were very happy to accept and they had a wonderful time eating carrots and lettuce.

After lunch, the frogs said goodbye to the rabbit and they continued on their journey. They soon came to a river and they saw a fish swimming in the water. The fish was very curious about the frogs and he asked them where they were going.

The frogs told the fish that they were going on an adventure and the fish decided to join them. The three friends traveled together for many days and they had many adventures.

One day, the three friends came to a mountain and they decided to climb to the top. The climb was very difficult, but the three friends helped each other and they eventually reached the summit.

When they reached the top of the mountain, they were amazed by the view. They could see for miles in every direction. They could see the pond where they lived, the river where they met the fish, and the forest where they met the rabbit.

The three friends sat on the top of the mountain and they talked about all the adventures they had had. They realized that they had learned a lot about themselves and about the world.

As the sun began to set, the three friends decided to head back home. They said goodbye to the mountain and they started to walk back down.

When they reached the bottom of the mountain, they were very tired. They were also very happy to be home. They realized that home is where the heart is.

The Green Frogs is a wonderful story that teaches children about the importance of friendship, adventure, and home. It is a story that will be enjoyed by children of all ages.
