

# Unveiling the Transformative Journey: Institutional Change and Rural Industrialization in China

China's remarkable transformation from an agrarian society to an economic powerhouse has been a subject of intense study and admiration. At the heart of this transformation lies the unprecedented industrialization of rural areas, a phenomenon that has lifted millions out of poverty and fueled sustained economic growth.

Institutional Change and Rural Industrialization in China offers a groundbreaking analysis of the profound institutional changes that have paved the way for this rural industrialization. Drawing upon extensive research and firsthand accounts, this comprehensive book explores the intricate interplay between policies, institutions, and local agency in shaping China's rural development trajectory.

- **Rigorous Analysis:** Based on in-depth fieldwork and meticulous data analysis, the book provides a robust understanding of the institutional transformations that have occurred in rural China.

## Institutional Change And Rural Industrialization In China: The Putting-out System In Handicraft Industry In Late Qing And Early Republic Period (Peking ... On Sociology And Anthropology Book 5)
